Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

to require concurrent enrollment in 5646

What is the rationale for the proposed change(s)?

By doing this, we can “tailor” the field experiences from 5189.01 to match this 5646 classroom-based course. This class focuses on teaching methods and classroom management and we will match the course to the requirements of the field experience

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?

No changes will be required - the two courses were already scheduled in the same semester in the same four-year plan

Is approval of the request contingent upon the approval of other course or curricular program request? No
