Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

We are proposing that the course be available on regional campuses.

What is the rationale for the proposed change(s)?

EPL 259 (1259) has a successful record of being offered on regional campuses, and EPL 159 (1159) was taught on the Lima campus in autumn quarter 2011.
Lima has expressed an interest in teaching the course again once we transition to semesters.

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?

The programmatic implications are that the regional campuses will have the opportunity to teach students online learning strategies and skills that aid in college success. This may be particularly important for the regional campuses, which have open enrollment policies and often enroll students who are considered at-risk.

Is approval of the request contingent upon the approval of other course or curricular program request? No
