Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)
This course was uploaded as a three credit AND repeatable course. It has been changed to 4 credits AND non-repeatable, as it was listed in our paper copies.

What is the rationale for the proposed change(s)?
I inadvertently entered this course into the system as a three credit AND repeatable course. This was user-error and done so long ago that I didn't catch it until we were reviewing all of our approved courses.

What are the programmatic implications of the proposed change(s)?
(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?
As this was due to a data-entry error, there are no programmatic implications as a result of this change.

Is approval of the request contingent upon the approval of other course or curricular program request? No
