Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

EDUPL 930 was the doctoral internship for HESA students and is now listed as EDUPL 8191.32. However, it was just brought to my attention that the course description was never changed. So, the new course description is the same as the old which requires students to register for 6 – 12 credit hours. Students admitted under semesters, should only have to register for 4 – 12 hours to meet their internship requirement.

What is the rationale for the proposed change(s)?

We need extend a broader range of credit hours to accommodate students admitted under quarters and transitioning to semesters and to reflect the conversation of quarter hours to semesters.

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?

Number of hours required for doctoral internship is still negotiated with student's advisor but this enables all to be covered in the transition and moving forward.

Is approval of the request contingent upon the approval of other course or curricular program request? No

Is this a request to withdraw the course? No
