### Term Information

**Effective Term**
Spring 2014  
**Previous Value**
Summer 2012

### Course Change Information

**What change is being proposed? (If more than one, what changes are being proposed?)**
Adding C- or better for prerequisite course

**What is the rationale for the proposed change(s)?**
A C- is currently required in all Human Nutrition courses to graduate. This will help our students determine that they need to change majors sooner. Right now we have about a dozen students each year that do not get the required C- in our junior and senior level advanced Nutrition courses. This is too late for them to change majors, yet they have to spend an extra year in school to repeat these courses. Some need to repeat these courses several times.

**What are the programmatic implications of the proposed change(s)?**
(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?
We may lose students who do poorly in our introductory course 2310, as they change majors.

**Is approval of the request contingent upon the approval of other course or curricular program request?**
Yes

**Please identify the pending request and explain its relationship to the proposed changes(s) for this course (e.g. cross listed courses, new or revised program)**
We are adding C- or better for all prerequisite courses for all of our undergraduate Human Nutrition courses.

**Is this a request to withdraw the course?**
No

### General Information

- **Course Bulletin Listing/Subject Area**: Human Nutrition
- **Fiscal Unit/Academic Org**: Department of Human Sciences - D1254  
- **College/Academic Group**: Education & Human Ecology  
- **Level/Career**: Undergraduate  
- **Course Number/Catalog**: 3704  
- **Course Title**: Public Health Nutrition  
- **Transcript Abbreviation**: Public Health Nutr  
- **Course Description**: Review of evidence base for public health nutrition including examination of food assistance and education programs; Description of public health nutrition efforts; Investigation of practices aimed at empowering the public to choose healthy foods.

- **Semester Credit Hours/Units**: Fixed: 2

### Offering Information

- **Length Of Course**: 14 Week  
- **Flexibly Scheduled Course**: Never  
- **Does any section of this course have a distance education component?**: No  
- **Grading Basis**: Letter Grade  
- **Repeatable**: No  
- **Course Components**: Lecture  
- **Grade Roster Component**: Lecture  
- **Credit Available by Exam**: No
### Admission Condition Course
No

### Off Campus
Never

### Campus of Offering
Columbus

## Prerequisites and Exclusions

### Prerequisites/Corequisites
C- or above in HUMN NTR 310 or 2310

**Previous Value**
HUMN NTR 310 or 2310

### Exclusions
HUMN NTR 704

## Cross-Listings

### Cross-Listings
None

## Subject/CIP Code

### Subject/CIP Code
51.3101

### Subsidy Level
Baccalaureate Course

### Intended Rank
Junior

## Quarters to Semesters

### Quarters to Semesters
Modified or re-envisioned course that includes substantial parts of the content and learning goals of one or more quarter courses

### List the current courses by number and title that are to be subsumed into proposed course
The scope of the current course, HumnNtr 704, Nutrition Programs and Services in the Community, has been broadened to include discussion of more global public health nutrition efforts.

## Requirement/Elective Designation

### Required for this unit's degrees, majors, and/or minors
The course is an elective (for this or other units) or is a service course for other units

## Course Details
Course goals or learning objectives/outcomes

- Define public health, trends that impact the public's health, the role of nutrition in public health, and essential knowledge skills and attitudes for public health nutrition practice
- Describe the evidence base for public health nutrition for different target groups (nutritionally vulnerable, mothers and infants, children and adolescents, adults, older adults)
- Describe the evidence for and current issues related to major US food assistance and education programs
- List three types of public health nutrition efforts and give examples of each
- Explain how to conduct a community needs assessment and types of data collected to do so
- Describe how to assess a target population’s nutritional status and cultural considerations when doing so
- Explain basic principles of epidemiology and how epidemiologic data are used in public health nutrition
- A six step process to plan, implement and evaluate nutrition programs and services
- Describe public health nutrition goals, services and programs for mothers and Infants
- Describe the current state of food security and insecurity in the US and globally
- Describe the difference between nutrition policies, legislation and regulations
- Describe examples of local, state, federal and international policies, legislation and regulations that facilitate or hinder nutritional health of the public
- Explain how local, state, federal and international nutrition policies, legislation and regulations are developed
- Give examples of how to advocate for local, state, federal and international nutrition policies, legislation and regulations

Content Topic List

- What is public health nutrition?
- Evidence base for public health nutrition for different target groups (nutritionally vulnerable, mothers and infants, children and adolescents, adults, older adults)
- Food assistance and education programs in the United States
- Assessing the community's needs for nutrition services
- Different types of public health nutrition interventions
- Planning, implementation and evaluation of public health nutrition services and programs
- Policies, legislation and regulations...how do they differ?
- Policies, legislation and regulations...how are they developed?
- Policies, legislation and regulations that facilitate and hinder healthy eating
- How to advocate for local, state, federal and international nutrition policies, legislation and regulations
