General Course Information:
- Credit hours: 1 – 3 per semester
- Grading: S / U
- Writing style: APA 6th Edition

Course Rationale:
The purposes of this course are to provide students with opportunities for independent study related to research, for application of basic skills needed to be successful in research, and for development and implementation of a project specific to Health and Exercise Science, Physical Education, or Sport Industry.

General Course Objectives:
Students will be able describe the current state of scholarship and research in kinesiology in general and participate in a research project. By the end of the course, the students will:

- Identify types of research and scholarship conducted in kinesiology.
- Practice elements of research from idea generation to article submission.
- Become better consumers of research by reviewing research articles as part of project development and interpretation of results.
- Develop skills in using reference management software.

Relationship to Other Courses:
This is an independent study course for undergraduate students in Kinesiology to develop practical experiences with research.

Technology:
The use of CARMEN is employed in this course for the dissemination of course materials such as syllabus and handouts. Additional means of communication between the instructor and students are available through the use of OSU email.

Diversity Statement: The Department of Human Sciences is committed to maintaining a community that recognizes and values the inherent worth and dignity of every person; fosters sensitivity, understanding, and mutual respect among its members; and encourages each individual to strive to reach his or her own potential. In pursuit of its goal of academic excellence, the Department seeks to develop and nurture diversity, believing that it strengthens the organization, stimulates creativity, promotes the
exchange of ideas, and enriches campus life. The Department of Human Sciences prohibits discrimination against any member of the school's community on the basis of race, religion, color, sex, age, national origin or ancestry, marital status, parental status, gender identity, sexual orientation, ability status, health status, or veteran status.

**Academic Integrity:** Each of you is responsible for becoming familiar with all rules and obligations of The Ohio State University described in *The Code of Student Conduct* available from the Office of Judicial Affairs, 2050 Drake Union. You are expected to do your own, original work within the confines of the course objectives and evaluation procedures. High standards of academic integrity and conduct are expected. *Academic misconduct* (see Faculty Rule 3335-31-02) is defined as “any act that undermines the academic integrity of the University or subverts the educational process.” This includes plagiarism and dishonest practices associated with examinations as well as any form of misconduct associated with academic work or grading. According to the OSU Committee on Academic Misconduct, “plagiarism is the representation of another’s works or ideas as one’s own; it includes the unacknowledged word for word use and/or paraphrasing of another’s work, and/or the inappropriate unacknowledged use of another person’s ideas.” I am required to report any incident that I suspect involves academic misconduct, such as cheating or plagiarism, to the Committee on Academic Misconduct. A hearing is held whenever formal allegations are received in that Office, and may also result in a failing grade for the assignment and the course. Penalties can also include expulsion for a semester or longer.

**Statement of Student Rights:** Students who feel they may need an accommodation based on the impact of a disability should contact me to arrange an appointment as soon as possible. At the appointment we can discuss the course format, anticipate your needs and explore potential accommodations. I rely on the Office For Disability Services for assistance in verifying the need for accommodations and developing accommodation strategies. If you have not previously contacted the Office for Disability Services, I encourage you to do so at: (614) 292-3307 (V) or (614) 292-0901 (TDD).

**Academics and Stress:** A recent American College Health Survey found stress, sleep problems, anxiety, depression, interpersonal concerns, death of a significant other and alcohol use among the top ten health impediments to academic performance. Students experiencing personal problems or situational crises during the semester are encouraged to contact the OSU Counseling and Consultation Services (614-292-5766; [http://www.ccs.ohio-state.edu](http://www.ccs.ohio-state.edu)) for assistance, support and advocacy. This service is free and confidential.
