Course Change Information

What change is being proposed? (If more than one, what changes are being proposed?)

Change the name to "Internship: Secondary Physical Education, Health Sport, & Physical Activity" and the credit hours are from 1 to 6. Students majoring in physical education and Health will register for 6 credit hours and students majoring in physical activity specialist will register for 3 credit hours.

What is the rationale for the proposed change(s)?

The name change will increase the class enrollment and accommodate the needs of students. The different requirement of credit hours for Physical Education and Physical Activity Specialist are to fulfill the degree requirement.

What are the programmatic implications of the proposed change(s)?

(e.g. program requirements to be added or removed, changes to be made in available resources, effect on other programs that use the course)?

No programmatic implications. 4191.02 will replace 4191.20 on the PAS program sheet.

Is approval of the request contingent upon the approval of other course or curricular program request?

No

Is this a request to withdraw the course?

No

Course Description

Physical Education & Health: Observation, analysis, and teaching in a public secondary school; dual and three-way conferences with supervisor and cooperating teacher.

Previous Value

Observation, analysis, and teaching in a public secondary school; dual and three-way conferences with supervisor and cooperating teacher.

Semester Credit Hours/Units

Variable: Min 1 Max 6

Previous Value

Fixed: 6

Offering Information

Length Of Course

14 Week, 7 Week, 4 Week (May Session), 12 Week (May + Summer)

Flexibly Scheduled Course

Never

Does any section of this course have a distance education component?

No

Grading Basis

Letter Grade

Repeatable

Yes

Previous Value

No

Allow Multiple Enrollments in Term

No
### Prerequisites and Exclusions

**Prerequisites/Corequisites**

For PETE majors prereq: 4780, admitted to PETE undergraduate major, and GPA 2.75 or above.  
For PAS majors prereq: Admitted to the PAS major.

**Previous Value**

Prereq: Admitted to PETE undergraduate major and GPA 2.75 or above. Concur: 4780 or EduPAES 4780.

**Exclusions**

Not open to students with credit for EduPAES 787 or 4191.02.

**Previous Value**

Not open to students with credit for EduPAES 787.

### Requirement/Elective Designation

Required for this unit’s degrees, majors, and/or minors

### Course Details

**Course goals or learning objectives/outcomes**

- 1. will extend their skills in systematic observation and reflection, so that they can analyze instances of behavior
- 2. will develop their skills including those of planning, management, instruction, and evaluation

**Previous Value**

**Content Topic List**

- Systemic observation and reflection
- Analyze behavior in different settings
- Maintaining, changing or modifying teaching practices based on changing student behaviors

### Attachments

- Proposed 4191.01 and 4191.02 Syllabus.doc  
(Syllabus. Owner: Li, Weidong)

### Comments

- 5/6/15- meet with Harry Lehwald and made adjustments to address committee concerns.  
revision requested: At 1/26/2015 EHE Curriculum Committee, question were raised about consistency in the course name, credit hours, course description and it was pointed out that PAS students do not need 4780, which is listed as concurrent.  
(by Odum, Sarah A. on 05/06/2015 10:52 AM)

Office Hours: By Appointment

Class Meetings:
- Physical Education - Tuesday Seminars from 4:30 – 6:30 in University Hall (UH) Room 086
- Physical Activity – 3 meetings: Start of the semester, semester mid-point and at the end of the semester

Credit Hours: 6 credit hours in Physical Education and 3 credit hours in PAS taken twice.

Rationale:
Physical Education & Health - This is the elementary (PE) and secondary school internship (PE & Health) component of the PETE licensure program for prospective physical education teachers. The internship consists of a set "capstone" experiences that most directly reflect the life of a teacher. These experiences require the integration of the teacher's knowledge of subject matter, learners, schools, curriculum, pedagogy and pedagogical content knowledge. The internship also requires professional leadership responsibilities that require in-depth analysis of teaching and learning, designing a learning environment to facilitate inquiry, use of technology to make connections and solve problems, use of traditional and authentic assessments that are equitable. Central to this physical education experience, is the development of the edTPA instrument. The focus of the edTPA is on demonstrating their understanding of teaching and student learning in authentic ways. These expectations are defined variously by national standards together with state and district curriculum frameworks, as well as specific school goals. The edTPA includes three tasks: planning, instruction and assessment. Tying all three of these tasks together will be a reflection upon the cyclical relationship among them with a focus on the learning needs of the students. Unit planning will also be expected, and has a twofold broader purpose: (a) there is an emphasis on providing a coherent rationale for teaching a specific unit of instruction in the context of the curriculum, school and community. In short, the questions answered include “Why teach this unit of instruction? “What is its relationship to curriculum, the school and the community?” and “Of what value is this content to the student?”; and (b) it requires that the preservice teacher provide multiple and repeated measurement and evidences of student learning relative to lesson objectives and unit goals in the three learning domains (i.e., psychomotor, cognitive, and affective).

Physical Activity Specialist – This is the first of two 3 credit hour internships for the physical activity specialist. The internship consists of two components: A hands on teaching component where interns work directly with clients and an administrative component where planning, programming and day-to-day operations are explored. The goal of this experience is for the intern to leave the internship with a thorough understanding of the requirements of that setting.
Course Objectives.

Physical Education & Health - The following are expectations for the course: That students:

1. will extend their skills in systematic observation and reflection, so that they can analyze instances of behavior (both their own as a teacher and those of their students) in different settings to enable them to maintain, change, or modify their teaching practices.

2. to develop their teaching skills including those of planning, class and student management, instruction, and evaluation.

3. will produce and submit an edTPA document (PE) that demonstrates the effectiveness of their teaching.

4. will participate in the school community as a professional by demonstrating judgments and behaviors expected of teachers.

Physical Activity Specialist – The following are expectations for the course. That students:

5. will develop their skills including those of planning, management, instruction, and evaluation.

Attendance: There is no provision for absences during your student teaching or internship. If any time is missed during student teaching or the internship, this time must be made up at a time negotiated with your university supervisor, course instructor, cooperating teacher or internship supervisor. In physical education and health, any absence that must be incurred (including personal illness, death in your immediate family, or other extreme circumstances) you must still make up the time you have missed and the only way to do this is in the fall semester. If you are absent more than five days you must repeat the entire 7 week (elementary or secondary) experience in the autumn semester. In physical activity specialist, any missed time must be made up within the semester to obtain the required number of hours. If the hours cannot be made up during the semester, an incomplete will be given and the hours must be made up prior to the start of the next semester.

Job Interviews: Job interviews with schools are important to all student teachers and interns. Physical Education and Health - While you are teaching, however, please schedule interviews after school/work hours or during public school breaks whenever possible. Physical Activity Specialist – Work with your site supervisor to coordinate any job interviews you need to miss time for.

Professionalism: Student teaching marks a significant step toward becoming a professional. You are, therefore expected to demonstrate the attitudes and actions of a professional. These include, but not exclusively: conforming to your school/organization’s rules and policies; extending basic rules of courtesy to teachers, pupils, school staff and the broader school community or coworkers; meeting the standards of dress, personal appearance, and professional behavior expected of the staff at your host setting; placing school/work responsibilities ahead of personal wishes and adhering to all deadlines set by your MT, US and program (PE & Health) or the internship advisor and work supervisor. In addition, you are expected to adhere to the Sport and Exercise Education Professionalism guidelines accompanying your syllabus. Failure to adhere to these professional guidelines (see the full description at the end of the syllabus) will result in your removal from student teaching/internship.

Physical Education & Health Planning: All lesson plans that you teach MUST be submitted and approved by your MT prior to your teaching of the lesson. If there is not a lesson plan submitted and approved, you CAN NOT teach that lesson and your US will be contacted immediately. If you do not teach a lesson then you can be subject to removal from the placement and awarded a failing grade. It will be a faculty decision as to whether or not you will be allowed to repeat the experience. Unit plans must also be submitted and approved by your MT before you are allowed to begin the unit. The unit CAN NOT be started until approved. As with the lesson plans, failure to submit the unit plan can lead to a failing grade in that placement.
Other Classes:
Student teaching or internship is considered to be a full-time experience that takes precedence over all other responsibilities including coaching, working, etc. We cannot prevent you from being involved in these activities but they cannot take precedence over the time you will spend in schools (note this is not the end of the school day but rather when your teacher leaves the school after the school day) or the internship experience. In internships the hours required to complete the expectations may extend into nights and or weekends. Any activities done after the teaching day or work hours cannot be an excuse for work not completed or presenting work of poor quality. Faculty and students expect the highest performance levels from you in this experience. If your work is poor, you should expect a low grade in this experience (it has been known to affect a student’s performance to where the experience must be repeated).

Evaluation.
Physical Education & Health - There are two components (one in health and both in Physical Education) of evaluation in this internship experience. Students MUST perform adequately in each component to receive a grade. Inadequate level of performance may result in an incomplete grade.

Component 1: Teaching Objectives (Health and Physical Education)
The elementary and secondary teaching objectives fall within the following categories:
- Context
- Teacher Interaction
- Knowledge of subject matter
- Planning: Lessons/Units/Seasons
- Class and Student Management
- Class Control
- Instructional Effectiveness
- Student Progress
- Intern’s Professionalism
- Strengths of Intern to Date
- Areas to Focus to Improve

The framework provided below is to be used as a guide to assess the students’ ability to demonstrate the internship objectives described above. The reason for the flexibility provided in this framework is to allow for the varying contextual issues faced in the “real world” setting. Failure to meet these standards at a B- or above level, will result in a failure for the course regardless on the scores in the other two components. This grade will be determined by the US in consultation with the MT and a review of the weekly performance rubrics. If component 3 is below expectations, then the grade in this course could be lowered appropriately.

Meets Standards
A, The candidate is judged exemplary in all aspects of the evaluation. During field experience she/he was prepared and demonstrated the objectives for student teaching consistently and efficiently.
A- The candidate is judged excellent to highly competent in all of the evaluation. During field experience she/he was prepared and demonstrated the objectives for student teaching consistently and efficiently.
B+ The candidate was very competent in attending to objectives for student teaching. He/she was prepared and many objectives were consistently demonstrated while others were observed but not yet a consistent part of the repertoire.
B  The candidate was proficient in the field experience though they had some difficulty attending to all of the goals of student teaching. He/she was adequately prepared and a few objectives were demonstrated consistently.

B-  The candidate was satisfactory in the field placement but had difficulty attending to some of the goals of student teaching. They were somewhat prepared and showed improvement in demonstrating some of the objectives but that improvement was not sustained enough to show consistent adherence to the expectations of the program.

Does Not Meet Standards
Fail  The performance in one or more of these areas do not meet the standards of the OSU Program. The candidate had a weak field experience. He/she failed to consistently perform at an acceptable level consistent with OSU expectations and did not show the consistent growth expected in one or more of the following major areas: Professionalism, Planning, Implementation, Management, Collaboration, Knowledge and Communication.

Component 2: edTPA (Physical Education only)
See edTPA Assessment Handbook for details. Your edTPA score will be a factor in your overall grade for the placement that you complete the portfolio in. Your placement grade will be adjusted according to the following scale:

- If your combined score of the 15 rubrics is at a level of 50 points or above your grade will be raised one level (i.e. B+ to an A-)
- If your combined score of the 15 rubrics is between 37 and 49 points your grade will remain the same
- If your combined score of the 15 rubrics is 36 or below your grade will be lowered one level (i.e. B+ to a B)

Physical Activity Specialist  – There are two components of evaluation in this internship experience. Students MUST perform adequately in each component to receive a grade. Inadequate level of performance may result in an incomplete grade.

Component 1: Weekly Reflections
Interns are expected to post on Carmen and weekly reflection of their work experiences for that week. A template will be provided to follow in posting these reflections.

Component 2: Summary Paper
At the end of the internship, a paper summarizing all aspects of the experience will be turned in. A description of the paper will be provided to all interns.
Physical Education Teacher Education Policy on Professionalism

All Teacher Candidates are expected to adhere to a professional code of conduct. How teachers interact with children, parents, and their professional colleagues is as important as their knowledge of content and teaching strategies.

What do we mean by the term professional conduct? Professional teachers:

• Demonstrate ethical behavior including academic honesty and confidentiality (e.g., FERPA).
• Work effectively with professional colleagues and other adults.
• Exhibit a positive attitude toward schools, teaching, students, and parents.
• Respond to frustration and stress appropriately.
• Consistent attendance and punctuality to school, notifies appropriate individuals when absence is necessary, completes assignments on time, and follows through on commitments.
• Dresses appropriately for the situation and wears appropriate attire for teachers in the school during practicum and internships.
• Is receptive and responsive to professional feedback incorporating suggestions into practice.

Examples of unprofessional conduct include but are not limited to:

• Lack of responsibility in fulfilling Teacher Candidate teaching requirements.
• Behaviors indicating an attitude of indifference or hostility.
• Inappropriate written or oral language which interferes with performance of teaching.
• Poor preparations skills such as providing no lesson plans, or poorly written lesson plans.
• Poor teaching skills such as inadequate classroom management and instruction.
• Poor interpersonal skills with school students, faculty, and/or staff.
• Violation of school policies, procedures, rules, regulations, or code of ethics
• Lack of appropriate professional attitudes, behaviors or dress.

Teacher Candidates who display unprofessional behavior will have their grade reduced by one letter grade at a minimum. However, if in the judgment of the Physical Education Teacher Education faculty the unprofessional conduct is severe the faculty will indicate to the instructor to provide a failing grade for the teaching and course experience.

Procedures:
When an unprofessional behavior occurs the instructor or supervisor in the case of minor instances (e.g., initial instances of poorly written plans or rudeness toward supervisors) will deal with the situation by contacting the Teacher Candidate to discuss the issues involved, if the initial instance is of a very serious nature (e.g., public arguing with a mentor or being disrespectful) the instructor will reduce the grade of the Teacher Candidate by one letter grade (e.g., A to A-). In the case of a more severe instance or repeated instances the instructor will call a Physical Education Teacher Education faculty meeting to discuss the situation. At such time the faculty will determine whether or not to recommend that the instructor submit a failing grade for the Teacher Candidate. After such meeting, the instructor along with a representative of the faculty and others deemed necessary will meet with the Teacher Candidate to discuss the determination of the faculty.
