Sarah A. Odum, MA
Curriculum Coordinator
College of Education and Human Ecology Academic Affairs
172 Arps Hall
1945 N High Street Columbus, OH
43210

Dear Sarah,

The members of the Undergraduate Studies Committee in the Department of Human Sciences unanimously approved the proposed changes in the K-12 Health Education Licensure Program to be effective Spring Semester 2017. None of the proposed changes will require additional resources by the department.

I hope these changes can be voted on by the college curriculum committee at its May 2016 meeting.

Let me know if you need anything further from me.

Sincerely,

H. Eugene Folden, Ph.D.

Re: Proposed changes to Health Education Licensure course offerings.
Date: April 5, 2016

Attached to this file is the current program sheet for K-12 Health Education Licensure program sheet and the new (proposed) version with changes in red.

We propose two changes to the course offerings. First, because ESWDE 5635 – School Health Services (3) will no longer be offered after fall 2017 we propose to replace it with HWIH 2200 Introduction to Health Literacy. The content of the classes is appropriate to meet the health standards. Second, to add flexibility and choice to the content areas required by the national health education standards we have added three classes:

- HWIH 2110 -- Dimensions of Wellness and Resilience (3)
- HWIH 2220 -- Wellness in Chronic Conditions I (3)
- Nursing 1102 -- 5 to Thrive: COPE (Creating Opportunities for Personal Empowerment)/Healthy Lifestyles (3)

One consequence of these changes is that in making class selections students might have 9 or 10 credits for this section.

The College of Nursing supports students in Health Education licensure program taking their classes—see email concurrence below.

Subject: your message about HWIH

Hi Phil,
I just left you a brief message. I don’t always check my voicemail timely, so I thought I would follow-up via email as well in case you are like me! :) We love the idea of your students taking our classes, and are completely fine with the Health
Literacy requirement.
Since we are entering all of these courses in our system right now, and we are not going to change pre-reqs during all of this (it could get messy), we will allow your students permission to enroll. It might just require an email to our academic team to override our pre-reqs but if EHE students identify themselves as EHE students (or however you prefer) they will be entered into our classes.
Does this sound ok from your end? We will lift the pre-req restrictions after we launch.
We are excited you suggested this!
Thank you!
Megan

Multi-Age (K-12) Licensure in Health Education

This program prepares teachers in the area of school health education across grades K-12. This is not a stand-alone credential. Health Education licensure candidates must either have, or be in the process, of acquiring a license in another teaching area. The curriculum for the health education program was selected by using the guidelines developed by the American Association for Health Education and the National Council for the Accreditation of Teacher Education (AAHE/NCATE). The National Health Education Standards developed by the Joint Committee on National Health Education Standards were also utilized to develop the curriculum.

Minimum hours: 24

For More Information:
Dr. Harry Lehwald
A274 PAES Building
305 Annie & John Glenn Ave.
614-292-7668
lehwald.3@osu.edu

Course work (24 hours)

**Foundations of School Health (9 hours)**
- HWIH 2200 Introduction to Health Literacy (3)
- KNHES 5651 Health Program Planning (3)
- KNHES 5704 Health Evaluation (3)

**Content Area (Take a minimum of 9 hours from the list below)**
- HDFS 3440 Human Sexuality (3)
- KNSFHP 3312 Issues in Alcohol/Drug Use and Abuse (2)
- KNSFHP 2250 Cancer Prevention (2)
- KNSFHP 3314 AIDS Awareness (2)
- HWIH 2110 Dimensions of Wellness and Resilience (3)
- HWIH 2220 Wellness in Chronic Conditions I (3)
- NURSNG 1102 5 to Thrive: COPE (Creating Opportunities for Personal Empowerment)/Healthy Lifestyles (3)

**Methods and Field Experiences (6 hours)**
- KNPE 4743 Teaching Health Educ in Elementary, Middle and High Schools (3)
- KNPE 4189.30 Practicum in K-12 Health Education (3)

**Fast Facts**
Students must maintain a 2.75 GPA throughout coursework

Upon completion of required coursework, but prior to the practicum students must pass the relevant state assessment(s). Please contact edlicensure@osu.edu regarding relevant state assessment questions.

Students may take the classes in any order except:
- KNHES 5651 must be taken before KNHES 5704
- The last two classes to be taken must be KNPE 4743 and then KNPE 4189.30 in that order.

If you are not a current undergraduate student studying physical education, you will need to contact Dr. Harry Lehwald, lehwald.3@osu.edu, to discuss your course of study.

Students are not required to complete the TPA for this second licensure.
