

**THE OHIO STATE UNIVERSITY**

COLLEGE OF  
EDUCATION AND HUMAN ECOLOGY

## Vision

The College of Education and Human Ecology seeks to be a preeminent scholarly community. By recruiting and retaining the best faculty and staff, and through an innovative and challenging curriculum, we will offer the students in our college an unparalleled academic experience that equips them to serve both local and national communities with dignity and integrity.

## Core Values

To chart a path towards the future, the College of Education and Human Ecology (EHE) must have a charter that orients its steps. In collaboration and consultation with its faculty and staff, EHE has developed five core values that represent our mission to serve The Ohio State University, the larger Columbus community, the state and world in which we live.

**Excellence:**

*in transformative high-impact teaching, research, and service devoted to our students and community*

**Justice:**

*in our plans, actions, and outcomes especially in the face of challenging circumstances and in the absence of agreement*

**Diversity:**

*in creating a community that is inclusive and equitable in representation, language, action, and behavior*

**Innovation:**

*in a continuous process of discovery that is solution focused and community based*

**Internationalization:**

*in cultivating an academic community with global awareness and engagement*

## EHE COMMUNITY PILLARS
